## About the Seminar

**LAW SEMINARS INTERNATIONAL**

### What previous attendees have said:

"This was a fascinating CLE..it was a real treat to hear from some subject matter experts. I will definitely recommend to my partners."

"Great mix of technical and legal content."

"Really good conference. One of the best I've been to."

*Landslides, caused by heavy El Niño thunderstorms, earthquakes, and flash floods after a four-year drought, are a threat to California communities.*

*This timely seminar will help scientists understand the policy and legal issues they are asked to address, and will help lawyers understand the legal and scientific theories that are at play in landslide litigation.*

*Our distinguished faculty of experts, lawyers, consultants, governmental officials, and academics will give tips for effectively integrating the science and the law. You will learn about the current state of the law on liability theories and defenses, and practical tips for assembling the case.*

*You will gain the knowledge you need to understand these interrelated fields in proving landslide claims. We hope to see you there.*

## Proving Landslide Claims Seminar

**Steven A. Blum, Program Co-Chair**, partner, Blum Collins LLP, www.cal-landslidelaw.com, focuses on real property trials and appeals, including landslides and earth subsidence, flooding, eminent domain, inverse condemnation, land fraud, and boundary disputes.

**John S. Peterson, Program Co-Chair**, president and managing shareholder, Peterson Law Group PC, focuses on eminent domain, inverse condemnation and other complex real estate and business cases with an emphasis on jury and non-jury trials. He is experienced in the representation of real estate valuation, business valuation, landslide, subsidence, CEQA, environmental, land use, subdivision, lease, construction defect and developer agreement disputes.

**Robert T. Altman** was appointed to the Superior Court in 1980 and spent twenty years on the bench where he received the Outstanding Trial Jurist Award from the Los Angeles County Bar Association. He now practices as a private judge at ADR, handling mediations and arbitrations involving civil law. Mr. Altman has been named by the *Daily Journal* as a "Top Master Neutral" and as one of the top mediators in California, and by the *Hollywood Reporter* as one of the top entertainment mediators in California.

**Patrick E. Catalano**, partner and founder, Catalano & Catalano, focuses on insurance-related legal matters, and real estate and real property disputes which occur from construction defects, or commonly in California, property damage from landslides. He is experienced in resolving landslide cases for homeowners.

**Michael B. Geibel**, partner and Chairman of the Insurance Defense Department, Gibbs Giden Locher Turner Senet & Wittbrodt LLP, focuses on civil litigation and appeals as well as arbitrations before the American Arbitration Association. He is lead trial counsel on insurance defense cases within the firm, and, in addition to defense of common personal injury and property damage claims, is experienced in slope failure and subsidence litigation, toxic mold claims and remediation.

**Rodney Masuda, PG, CEG**, Principal Geologist, U.S. Army Corps of Engineers, Los Angeles District, is experienced in engineering geology and geotechnical engineering. He has performed and directed the performance of a number of geologic and geotechnical investigations of distress to structures and improvements, including investigations of landslides.

**Michael L. Moore** is Principal Deputy County Counsel at the Los Angeles County Counsel's Office.

**Daniel Pradel, Ph.D., PE, GE, DGE**, UCLA Professor, Engineering, and Vice President of Shannon & Wilson, in Glendale, CA, is a registered Geotechnical Engineer and a registered Civil Engineer in California and several other states. He is experienced in landslide investigations and in the design of landslide repairs, and has performed numerous earthquake, settlement, seepage, retaining walls, expansive soils, and foundation engineering investigations.

**Philip J. Shaller, Ph.D.**, Senior Managing Scientist and head of the Geo Group, Exponent's Civil Engineering practice, is an engineering geology consultant specializing in the assessment and mitigation of geologic hazards. He is experienced in the investigation of landslides, debris flows, alluvial fan flooding, post-wildfire flooding hazards, expansive soils and collapsible soils.

**Michael F. Waldron**, President and Principal Appraiser, Waldron & Associates, Inc., is a field appraiser and real property consultant, with a focus on eminent domain assignments. He concentrates on complex litigation issues and has provided testimony as expert and arbitrator. His application of valuation methodologies and valuation opinions have been tried and affirmed in Superior Courts, Appellate Courts and the California Supreme Court.

**Frank Weirich, Ph.D.**, is Associate Professor, Earth & Environmental Sciences, at the University of Iowa. He is involved with the studies of high energy environment sediment dynamics, fire impacts on fluvial, mass wasting and overall landform dynamics, dynamic process measurements, basin scale experimentation, multi-dimensional sensor arrays, and the use of geophysical techniques in geomorphology.

**Dale Winchell**, Manager, Jax Kneppers Associates Inc., provides expert witness deposition testimony, and has qualified and testified at trial and arbitration throughout California, and in federal trial. He represents developers, contractors, homeowners, homeowners' associations, insurance companies, universities, hospitals and building owners on behalf of both plaintiff and defense.
